### OUR 1939 INTRODUCTIONS

After (15) fifteen years of growing miniature seedlings by the thousands, we to date are introducing our third and fourth miniature. We are proud to offer you what we believe are two miniatures which will meet with the approval of our many friends. Our seedlings are not released the first or second year but we grow them under field culture for four years before releasing them and then for May delivery only the first year.

#### FAIRY LOVELINESS

A FD miniature which is a seedling of FAIRY, and has all of the outstanding qualities of its parent, plus depth. It is of the same size and formation but much deeper and more compact. Color Baby pink with a bright creamy center, the center about the size of a half dollar. Open grower and very prolific bloomer early and has never showed an open center. Roots May delivery \$5.00. Plants \$1.50, 3 for \$3.50.

#### RED DEATON

A FD. miniature of bright red, with a high tight center, long stems, and a very good keeper after cut. This red with a good white makes a combination vase or basket that will be hard to beat in the show room. Try it and if we did not give you a good tip tell us and we will refund the purchase price. This guarantee is good with Fairy Loveliness also. Roots May delivery \$3.00 Plants \$1.00, three for \$2.50.

For other miniatures see back inside cover. You will find our Pompons also listed there.
